

primemont

شركة برايممونت
Primemont Company

WHO WE ARE

Primemont is a multi-disciplinary service company established to support the growing needs of the Kingdom of Saudi Arabia's industrial, construction, oil & gas, infrastructure, commercial, and corporate sectors.

With a strong focus on quality, safety, reliability, and timely execution, Primemont provides integrated solutions through its specialized divisions covering equipment rental, engineering services, manpower supply, media and advertising, civil works, steel fabrication, and mechanical shutdown support.

We believe that every project deserves a dependable partner — one that understands site requirements, mobilizes resources efficiently, and delivers with professionalism from start to completion.

MESSAGE FROM THE BOARD

At Primemont, our journey is guided by a clear vision – to build a company that stands for trust, performance, and long-term value.

We understand that today's business environment demands more than just servicedelivery. Clients require partners who can respond quickly, execute responsibly, and contribute meaningfully to project success. This is the foundation on which Primemont has been built.

Our commitment is to provide reliable solutions across industrial, construction, oil & gas, commercial, and infrastructure sectors while maintaining the highest standards of safety, quality, and professionalism. Whether it is equipment rental, manpower support, engineering services, fabrication, civil works, mechanical shutdown activities, or media and advertising solutions, we approach every assignment with dedication and accountability.

We believe our people, our values, and our client-focused approach are the true strength of our organization. By combining technical capability, operational discipline, and ethical business practices, we aim to become a trusted partner for clients across the Kingdom of Saudi Arabia.

As Saudi Arabia continues its remarkable growth under Vision 2030, Primemont is committed to contributing to this transformation by supporting projects that build industries, strengthen businesses, and create lasting impact.

On behalf of the Board, we thank our clients, partners, employees, and stakeholders for their trust and support. We look forward to building stronger partnerships and delivering excellence in every project we undertake.

ABOUT PRIMEMONT

Primemont is a Saudi-based service company providing comprehensive business and project support solutions across multiple sectors. Our services are designed to meet the needs of industrial plants, construction companies, oil & gas contractors, infrastructure developers, commercial establishments, and corporate clients.

We operate through specialized divisions that allow us to deliver focused, practical, and efficient solutions to our clients. Each division is built with the objective of supporting project execution, reducing operational challenges, and ensuring timely delivery.

Our strength lies in our ability to understand client requirements, arrange suitable resources, and provide dependable service support. From supplying equipment and manpower to executing fabrication, civil, mechanical, and advertising works, Primemont provides integrated solutions under one roof.

We are committed to professional service, transparent dealings, continuous improvement, and long-term business relationships.

VISION

To become a trusted and diversified service partner in the Kingdom of Saudi Arabia, recognized for quality, reliability, safety, innovation, and excellence across industrial, construction, oil & gas, commercial, and infrastructure sectors.

MISSION

Our mission is to deliver reliable, value-driven, and professional services that support the operational and project needs of our clients.

We aim to provide high-quality solutions through skilled manpower, dependable equipment, strong execution capability, ethical business practices, and a customer-focused approach.

Through continuous improvement, safety commitment, and timely service delivery, Primemont strives to build long-term partnerships and contribute to the growth and development of the industries we serve.

WHY CHOOSE US

Comprehensive Service Range

Primemont provides multiple services under one platform, allowing clients to access equipment, manpower, engineering, fabrication, civil, mechanical, and advertising solutions through a single reliable partner.

Industrial Understanding

We understand the requirements of oil & gas, petrochemical, construction, industrial maintenance, and shutdown projects. Our services are designed to match the practical realities of site operations.

Timely Mobilization

We know that time is critical in project execution. Primemont focuses on quick response, proper coordination, and timely mobilization of resources.

Quality and Safety Focus

Our services are delivered with attention to quality, safety, and professional standards. We aim to support clients with dependable solutions that reduce risk and improve productivity.

Customer-Centric Approach

Every client and project is different. We provide flexible solutions tailored to specific requirements, timelines, and operational challenges.

Ethical Business Practice

We believe in honest communication, transparent dealings, and long-term partnerships based on trust and mutual growth.

OUR CORE VALUES

Excellence

We are committed to delivering high-quality services in every project we undertake. Our focus is on proper planning, professional execution, attention to detail, and continuous improvement.

Integrity

We believe in conducting business with honesty, transparency, and responsibility. Integrity guides our decisions, our relationships, and our commitment to clients.

Safety

Safety is a priority in every division of our business. Whether on a construction site, industrial plant, fabrication area, or shutdown project, we aim to follow safe work practices and promote a responsible work culture.

Reliability

Our clients depend on us for timely support and practical solutions. We strive to be a reliable partner by responding quickly, mobilizing efficiently, and delivering as promised.

Customer Focus

We place our clients at the center of everything we do. We listen to their requirements, understand their challenges, and provide solutions that match project needs.

Accountability

We take responsibility for our commitments, actions, and results. Every assignment is handled with ownership, discipline, and professionalism.

Innovation

We continuously seek better ways to deliver our services. Through improved processes, practical solutions, and adaptability, we aim to create value for our clients.

Teamwork

We believe that strong coordination between our team, clients, suppliers, and project stakeholders leads to better results and smoother project execution.

Sustainability

We aim to support responsible business practices that contribute positively to people, projects, industries, and the environment.

OUR EXPERTISE

EQUIPMENT RENTAL SERVICES

Primemont's Equipment Rental Services division offers a comprehensive and reliable range of heavy, industrial, and light equipment tailored to support construction, maintenance, shutdown, and infrastructure projects across the Kingdom of Saudi Arabia. Backed by hands-on operational experience and a thorough understanding of site-level requirements, we ensure every piece of equipment mobilized is fit for purpose, well-maintained, and supported by responsive on-ground coordination.

We serve clients across oil and gas, petrochemical, civil construction, industrial maintenance, and infrastructure sectors – providing flexible short-term and long-term rental solutions aligned with project timelines and operational demands

Our Equipment Fleet

Cranes

A full spectrum of crane solutions for lifting, installation, and heavy material handling across industrial plants, construction sites, and shutdown operations.

- Rough Terrain Cranes
- All Terrain Cranes
- Mobile Cranes

Earth Moving Equipment

Heavy earth moving machinery for site preparation, excavation, grading, and bulk material handling on construction and industrial projects.

Wheel Loaders & Backhoe Loaders, Excavators – Standard, Mini, Wheel & Long Boom, Bulldozers & Graders, Dump Trucks & Skid Loaders, Roller Compactors, Road Sweepers & Trenchers

Heavy Equipment

- Boom Trucks
- Forklifts – Electric, LPG & Diesel
- Telehandlers & Reach Stackers
- Manlifts – Articulated & Telescopic
- Scissor Lifts – Diesel & Electric
- Concrete Mixers

Industrial Equipment

Specialist industrial equipment supporting plant maintenance, shutdown activities, and process operations.

Super Suckers & Vacuum Trucks, Bundle Pullers, High Pressure Water Jetting Pumps, Bolt Torquing & Tensioning Equipment, Hopper Cyclones, Dust Filters & Industrial AC Units, Frac Tanks & ISO Tanks

Light & Power Equipment

- Air Compressors
 - Diesel Generators
 - Welding Machines
 - Tower Lights
-

Vehicles & Transportation

- Trailers – Flat Bed, Low Bed, Hydraulic Lowbed
 - Buses –Standard, Coaster & Minibus
 - Water Tankers & Diesel Tankers
 - Pickups, SUVs, Dyna Trucks & Prime Movers
-

Why Choose Primemont for Equipment Rental?

- Flexible short-term and long-term rental options tailored to project schedules
- Equipment suited for construction, plant maintenance, shutdown, and industrial activities
- Responsive mobilization and on-time delivery to site
- Experienced coordination between client requirements and equipment deployment
- Full support from initial requirement assessment through to demobilization

INDUSTRIAL SERVICES

Primemont's Industrial Services division delivers a broad range of contracting and technical services to the oil and gas, petrochemical, construction, and industrial sectors across the Kingdom of Saudi Arabia. Drawing on direct operational experience across complex industrial projects, our team brings genuine technical understanding, structured project management, and the ability to coordinate and oversee the right resources for every scope of work. Whether it is civil construction, structural fabrication, mechanical shutdown support, or day-to-day industrial support, Primemont serves as the client's single point of accountability – from mobilization through completion.

► Civil Works

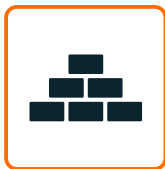

Primemont's Civil Works capability covers a comprehensive range of construction and infrastructure activities for industrial, commercial, and institutional clients across Saudi Arabia.

With direct hands-on experience in executing civil works within industrial plant environments, commercial developments, and infrastructure projects, we bring structured project management and disciplined attention to quality at every phase of construction. Our team understands the practical realities of on-site construction – from early-stage ground preparation through to architectural finishing – ensuring every project is delivered on schedule, within scope, and to the required standard.

Site Preparation & Earthworks

- Site surveying, setting out, and layout
- Earthwork, excavation, and controlled backfilling
- Grading, leveling, and compaction
- Pavement and plant road works

Foundation & Structural Works

- Foundation construction – shallow and deep
- Reinforced concrete works to applicable standards
- Superstructure construction
- Pipe rack, equipment support, and anchor bolt works

Building & Facility Construction

- Foundation construction – shallow and deep
- Reinforced concrete works to applicable standards
- Superstructure construction
- Pipe rack, equipment support, and anchor bolt works

Infrastructure & Utilities

- Drainage systems and underground utility installation
- Internal plant roads and access routes
- Landscaping and external works

Our Approach

All civil works are executed in compliance with applicable Saudi construction standards and clientspecific project requirements. Safety protocols are enforced at every stage, with dedicated oversight to ensure quality workmanship from ground preparation to handover.

► Steel Fabrication

Primemont's Steel Fabrication capability provides comprehensive structural and industrial fabrication services for the construction, oil and gas, petrochemical, and industrial sectors. With a strong foundation of practical experience in structural steel and industrial fabrication projects, we manage and oversee fabrication scopes that meet client specifications, applicable international codes, and project delivery timelines.

From structural frameworks and platforms to custom industrial components, Primemont coordinates the full fabrication cycle – from design and shop drawing review through material sourcing, fabrication, surface treatment, and on-site installation.

Structural Steel Works

- Structural steel frameworks, columns, beams, and bracing
 - Mechanical equipment support frameworks and skid structures
 - Industrial platforms, catwalks, mezzanines, and access structures
 - Pipe racks, pipe supports, and sleepers
 - Staircases, ladders, handrails, and safety grating
-

Fabrication Capabilities

- Rolling – shaping metal sheets and plates into cylindrical, conical, or custom profiles
 - Bending – precision forming of structural and architectural metal components
 - Welding & Assembly – structural welding and complex assembly using qualified procedures
 - Platform Fabrication – custom design, fabrication, and installation of industrial access structures
 - Custom fabrication of tanks, vessels, and process equipment supports
-

Blasting & Coating

- Surface preparation and abrasive blasting per applicable coating specifications
 - Protective coating application for corrosion resistance and long-term durability
 - Coverage for structural components, process equipment, and pipework
-

Engineering & Design Coordination

- Structural modelling and analysis coordination
- Shop drawing preparation and approval management
- Material take-off, procurement, and quality inspection

Standards & Compliance

Fabrication work is coordinated and executed in accordance with internationally recognized codes including ASME, AISC, AWS, and applicable Saudi Aramco standards – ensuring structural integrity, weld quality, and dimensional accuracy meet required acceptance criteria.

► Mechanical Shutdown & Turnaround

Primemont provides comprehensive support for planned and emergency mechanical shutdowns, turnarounds, and inspection activities across industrial plants, refineries, petrochemical facilities, and oil and gas installations. With direct experience in shutdown planning and execution environments, we understand the critical significance of time, technical precision, and safety compliance in every shutdown scope.

Primemont coordinates and mobilizes the right specialist resources for each assignment – acting as the client's single point of coordination and accountability throughout the full shutdown cycle, from scope development and pre-shutdown planning through execution, inspection, and recommissioning.

Heat Exchanger Services

Primemont supports and coordinates a full range of heat exchanger maintenance and repair scopes, including:

- Onsite and oXsite repair services for Shell & Tube, U Bundle, Fin Fan Coolers, and Plate Heat Exchangers
- Mechanical tube cleaning – removal of hard scale, corrosion deposits, and process fouling regardless of tube configuration
- Tube testing – Air, Vacuum, and Hydro testing from low pressure through to high-pressure individual tube testing
- Tube plugging – single, two-piece, and high-pressure plugs to ASME and ISO standards
- Re-tubing – complete tube removal and installation following TEMA specifications and ASME code requirements
- Heat exchanger refurbishment – replacement of tube sheets, baXle plates, and support tubes

Storage Tank Maintenance & T&I

- Turnaround and inspection works for above-ground storage tanks per API 650 / API 653
- Shell replacement, bottom plate replacement, and roof replacement works
- Structural repairs – internal supports, rafters, columns, ladders, and platforms
- Nozzle, man way, and associated piping modifications
- Blasting, coating, and surface protection works
- Testing and inspection – vacuum box testing, hydrotesting, holiday testing, and NDT coordination

General Shutdown & Turnaround Support

- Shutdown scope development, planning, and resource coordination
 - Bolt torquing and tensioning
 - High pressure water jetting and industrial cleaning coordination
 - Mechanical equipment installation and recommissioning support
 - Planned and emergency shutdown mobilization
-

Industrial Cleaning Services

Primemont coordinates industrial cleaning activities as an integral part of shutdown and maintenance scopes, ensuring plant areas and equipment are properly cleaned before, during, and after turnaround activities.

- High pressure water jetting and vacuum truck services
- Industrial waste removal and site sanitation
- Sewer, drain, and process line cleaning coordination
- Tank and vessel cleaning support during T&I activities

Our Approach

Primemont brings structured planning, disciplined coordination, and active oversight to every shutdown and turnaround scope. Our direct experience within shutdown environments means we understand what it takes to meet client schedules, maintain zero-incident safety performance, and deliver quality results within the compressed timeframes that turnaround activities demand.

MANPOWER SUPPLY

Primemont's Manpower Supply division provides reliable and qualified workforce solutions to industrial, construction, and commercial clients across the Kingdom of Saudi Arabia. With a clear understanding of the skilled and semi-skilled workforce requirements that drive project success, we source, verify, and deploy the right people for the right roles – enabling our clients to focus on project delivery without the administrative and compliance burden of direct workforce management.

Whether a client requires a small specialized team for a specific project phase or a sustained workforce for ongoing operations, Primemont delivers manpower solutions that are professionally managed, flexible, and fully compliant with Saudi labor law requirements and Saudization (Nitaqat) obligations.

Categories of Manpower We Supply

Skilled Technical Workforce

- Welders – 6G certified, structural, TIG / MIG / SMAW
 - Pipefitters and structural fabricators
 - Mechanical technicians and millwrights
 - Instrumentation and electrical technicians
 - NDT inspectors and QA/QC engineers
-

Semi-Skilled & Operational Workforce

- Heavy equipment and crane operators (Aramco-certified available)
 - Riggers, signalmen, and scaffolding erectors
 - General laborers, site helpers, and plant attendants
-

Supervisory & Professional Workforce

- Site engineers, project engineers, and construction managers
- Construction supervisors and working foremen
- HSE officers and safety supervisors
- Project coordinators, planners, and document controllers
- Administrative and commercial support staff

Our Manpower Supply Approach

- Candidate sourcing, screening, trade testing, and skills verification
 - Compliance with Saudi labor law, Saudization requirements, and applicable client standards
 - Coordination of visa processing, accommodation, and mobilization logistics where required
 - Ongoing HR and administrative support throughout the deployment period
 - Flexible engagement models – short-term, long-term, and project-based contracts
-

Sectors We Serve

Oil & Gas, Petrochemical, Refinery, Power & Utilities, Industrial Maintenance, Construction, and Commercial Projects.

MEDIA & ADVERTISING

Primemont's Media & Advertising division delivers professional visual communication and branding solutions for corporate, commercial, and industrial clients across the Kingdom of Saudi Arabia. From large-scale road and traXic signage to corporate identity, promotional printing, and custom fabricated displays, we provide end-to-end media solutions that communicate our clients' brands with impact, professionalism, and durability.

With hands-on experience across production, fabrication, and on-site installation, Primemont manages every stage of the process – from concept development and design coordination through to manufacturing, finishing, and final deployment

Our Media & Advertising Services

Road & Traffic Signage

Design, fabrication, and installation of compliant road and traXic signage for industrial facilities, infrastructure projects, gated communities, and municipal applications.

- Directional and wayfinding signage systems
- TraXic control and regulatory signage
- Industrial plant and facility hazard boards
- Street nameboards and facility identification signs
- Reflective and illuminated road signs to applicable Saudi standards

Corporate & Commercial Signage

- Building fascia boards and commercial hoardings
- Reception backwalls, lobby signage, and interior branding
- Outdoor advertising boards and billboards
- Illuminated signage, LED displays, and lightbox panels
- Facility and oXice branding solutions

Print & Promotional Materials

- Large format printing – banners, flex boards, and backlit panels
- Corporate stationery, branded materials, and document printing
- Event backdrops, exhibition panels, and pop-up displays
- Branded promotional gifts, corporate giveaways, and merchandise
- Packaging design and branded product materials

Events & Exhibition Support

- Event branding, setup, and coordination support
- Exhibition booth design and fabrication
- Stage backdrops, podium branding, and venue signage
- Corporate event visual communication and on-site installation

Our Approach

Every project handled by Primemont's Media & Advertising division is delivered with attention to brand consistency, production quality, and on-time completion. We work closely with clients to understand their communication objectives and translate them into professional, durable, and visually impactful outputs – whether for a single installation or a full-scale corporate rollout.

Sectors We Serve

Oil & Gas, Industrial, Construction, Government, Hospitality, Commercial, Retail, and Events

SUSTAINABILITY INITIATIVES

At Primemont, we recognize the importance of sustainability in today's global business environment and remain committed to playing our part in building a greener and more responsible future. Our sustainability initiatives are integrated into the way we operate, guiding our actions as we work to minimize environmental impact and promote responsible business practices.

From waste reduction strategies to energy-efficient measures, we are dedicated to reducing our impact on the environment while delivering reliable results to our clients. We prioritize responsible sourcing practices, practical resource management, and sustainable materials and processes wherever possible to ensure that our operations remain environmentally conscious.

Furthermore, we encourage energy-saving practices across our facilities, project sites, and operations to reduce our carbon footprint and promote efficiency. Through initiatives such as recycling, responsible material usage, and improved operational planning, we aim to minimize waste and support a more sustainable working environment.

Our commitment to sustainability extends beyond our own operations to our partnerships and collaborations. We actively seek to work with suppliers, clients, and partners who share our commitment to environmental responsibility and ethical business practices.

By embracing sustainability as a core value, Primemont not only contributes to a healthier planet but also positions itself as a responsible business partner. Our sustainability initiatives reflect our dedication to creating long-term value while supporting a better future for generations to come.

ACCREDITATIONS

At Primemont, our commitment to excellence is reflected not only in our services but also in the recognition we aim to receive from respected accrediting bodies and certification authorities. These accreditations serve as a testament to our commitment to industry standards, quality, safety, and best business practices.

We are proud to pursue and maintain a diverse range of accreditations, each reflecting our commitment to quality, safety, and environmental responsibility. These certifications cover various aspects of our operations, from service delivery and project execution to workplace safety protocols, ensuring that every part of our business meets professional standards of excellence.

Our accreditations are more than just certificates; they are a reflection of our ongoing commitment to continuous improvement and excellence in all that we do. By maintaining recognized certifications and approvals, we demonstrate our dedication to upholding high standards of professionalism, integrity, and quality, earning the trust and confidence of our clients and partners alike.
